Vancouver, BC | +1 (778) 779-8072 | dagaranusha@gmail.com
linkedin.com/in/anusha-dagar-82834619a | github.com/anushadagar1407
Canadian Permanent Resident | Full-Stack Software Engineer | Python, TypeScript, React, LLM Applications

Professional Summary

Full-stack software engineer with experience building AI-enabled applications, backend APIs, workflow systems, and customer-facing financial software. Hands-on with Python, FastAPI, TypeScript, React, Next.js, Java, Spring Boot, SQL, SQLite, MongoDB, and automated testing. Built and evaluated multi-step LLM-agent workflows with structured state, audit trails, reliability metrics, and 230+ test runs. Comfortable taking ambiguous business problems from discovery through implementation, evaluation, debugging, documentation, and stakeholder delivery.

Technical Skills

Full Stack: Python, FastAPI, TypeScript, JavaScript, React, Next.js, React Native, Java, Spring Boot, HTML/CSS, responsive interfaces
AI and Agent Workflows: Google ADK, LiteLLM, LangGraph, Ollama, Vertex AI, LLM evaluation, prompt design, agent workflows, workflow state, Agent Registry
Backend and Data: REST APIs, API design, SQL, SQLite, PostgreSQL, MySQL, MongoDB, structured records, data modelling, workflow tracking, audit trails
Quality and Delivery: Pytest, Playwright, Allure Reports, unit testing, integration testing, regression automation, Git, Jenkins, GitHub Actions, CI/CD, Agile/Scrum
Collaboration: Requirements discovery, technical documentation, code reviews, issue triage, root-cause analysis, stakeholder communication, client-focused problem solving

Professional Experience

Deutsche Bank | Berlin, Germany **Apr. 2025 – Aug. 2026**

Software Engineer Intern to Associate Engineer **Feb. 2026 – Aug. 2026**

- Built and shipped a full-stack AI-agent evaluation platform for loan-covenant risk workflows using Python, FastAPI, Next.js, SQLite, Google ADK, Ollama, and LiteLLM; delivered REST APIs, structured state, workflow tracking, and audit trails with 93.6% breach-detection accuracy.
- Designed an Agent Registry and reliability evaluation workflow across 230+ runs, surfacing process failures, improving reproducibility, and identifying an 18% process-outcome gap.
- Developed Java/Spring Boot REST APIs for commercial-banking onboarding and used SQL analysis, application logs, tests, code reviews, and CI/CD checks to diagnose defects and improve release reliability.
- Worked directly with product, QA, engineering, and business stakeholders to clarify ambiguous requirements, communicate trade-offs, document solutions, and support production delivery.

Software Engineer Intern, Corporate Bank Liquidity Dashboard **Apr. 2025 – Sep. 2025**

- Delivered React and backend API features for a corporate-bank liquidity dashboard, translating user needs into monitoring workflows and supporting real-time access to banking information.
- Built 20 Playwright regression suites with Allure reporting and CI/CD gates, achieving 95% automated regression coverage and reducing manual QA effort by 50%.

Airtel Payments Bank | Digital payments bank, Gurgaon, India **Jul. 2023 – Aug. 2024**

Software Development Engineer, Assistant Manager – Technology

- Developed Spring Boot services, SQL workflows, and React Native integrations for digital-banking onboarding, reducing customer-journey lead time by 20%.
- Coordinated delivery across mobile, backend, database, QA, product, and operations teams, troubleshooting issues and supporting customer-facing releases.

Citi India | Pune, India **May 2022 – Jul. 2022**

Software Analyst Intern, Commodities Technology

- Built Python, MongoDB/SQL, and Swagger tooling for Simpliciti CVA workflows, reducing configuration-processing time by 15%.

Leadership and Community

Class Representative; Co-President, Tech and Innovation Club; member of Consulting Club, Investment Club, Women in Leadership, and Sports Society at ESMT. Recognized by classmates for being consistently available to support others and share knowledge.

Education

European School of Management and Technology (ESMT), Berlin, Germany **Sep. 2024 – Aug. 2026**
M.Sc. in Analytics and Artificial Intelligence; German grade 1.7

Indira Gandhi Delhi Technical University for Women, Delhi, India **Aug. 2019 – Jun. 2023**
B.Tech. in Electronics and Communication Engineering; CGPA 7.95/10
